THE HOME FORUM

TWIN OAKS OF WAYSIDE INN

A thousand years you've held your ground As side by side you grow, Your branches clasping hands above, Your roots entwined below.

While yet no white man ever saw Your wind-wared stalwart arms, The redskin's tocsin neath your branch Had sounded war's alarms.

For in your shade brave warriors sat Here on their ancient trail, While in their councils oft was heard Some young blood's gruescme tale.

The breeze that blew from Plymouth Bay Caressed your topmost leaf And whispered stories of the times When Samoset was chief.

Then later when Longfellow knew The charms of Wayside Inn Your epic forms still caught and held Some mystic voice for him

And now today your time-knarred trunks Your limbs scarred by the storm, Are symbols of abiding strength Where struggling is the norm.

SEE THESE DEATH-DEFYING FEATS!

Zoom! Off the top of steep ramps. Crash! through walls of fire, then over and over in a "barrel rell" on the ground -these are just a few of the many thrilling, breath-taking, death-defying feats of the Chrysler Motors Hell Drivers.

Come and see the Chrysler Motors Hell Drivers steeplechase over hedges at 48 miles per hour, drive furiously on a 38-tilt—then a 45° tilt, deliberately turn the car over at high speed, roll over and over and then step out with a grin unharmed.

MAKE YOUR CAR YOUR CASTLE! We'll show you PROOF that Goodyears keep their safe road grip

Even after long mileages on modern, fast-performing cars, Goodyears still retain their safe, non-skid centre traction grip. We'll prove this to you right in our shop by showing you "footprints" of tires on our customers' cars after they have gone long mileages. You will see here, too, the Supertwist cord demonstration proving that Goodyear cords are stronger and more elastic-and the non-skid demonstration illustrating clearly how and why the All-Weather tread is safer on slippery roads.

ALL-BRAN

"DROWSY BILL," they called him-a listless, etronally tired, old-young man, He tried hard enough, but his energies always sugged before the job was done. One day Bill was missing . . . fired.

In every walk of life you'll find men and women who are handlesped by being below par physi-cally. Often the trouble is common constipation — caused by lack of sufficient "bulk" in the diet.

Unfortunately, too many people usest contion too lightly. They do not realise it is a n to health until much harm has been done.

Thank goodness, there is a pleasant, easy and safe way to correct this type of constipation. Kellogg's ALL-REAN is a generous source of "bulk." Within the body, it absorbs moisture, within the body, it absorbs moisture, and forms a soft mass. Gently, this exercises and cleanses the intestinal walls. Two tablespoonfuls daily are usually sufficient. Stubborn cases may require ALL-BRAN oftener. require ALL-BRAN ofteners

Scientific tests have shown that ALL-BRAN is safe and effective. Also that its "bulk" is often more effective than the "bulk" in fruits and vegetables, as it does not break down within the body. ALL-BRAN also supplies yitamin B and iron.

Doesn't it seem reasonable that you should get this "bulk" in the meals you eat? Im't it better to regulate yourself by a natural food rather than by unnatural drugs?

Kellogg's ALL-BRAN corrects only comm

stipation, makes no claim to be a "cursal." It is guaranteed by the Kellogg Company, Enjoy this natural laxative food regularly for regularity, Either, as a cereal or cooked into tempting recipes.

Sold by all grocers. Served at res-taurants and hotels. Made by Kellogg in London, Ontario.

Serve ALL-BRAN regularly for regularity

THE HOME FORUM

We left the land of Florida
Upon a sunny day,
And turned our footsteps northward
Along winding way;
We also be palm and pine trees,
The nocking-bird's gwest song,
The flowers of the Southland
That claimed our heart so long.

And as we journeyed northward
We met a changing scene.
The gardens and the corn lands
Arrayed in living green;
Atlanife's white-capped breakers
Beating upon the shore.
The bounding waters of the deep,
The surges' rush and rear.

Let Courtesy on Cand **Equal Courtesy on** Water

A FRIEND OF MINE told me that in his twenty-five years of active salling, canocing and power-boating, in a large boat club of over a thousand members, no man had ever been lost or even seriously injured. I saled him for the explanation and he repided that it was "because of the great courtery that exists on the water between one sallic and ambien—a country said commadeship that makes boating so highly enjoyable?
"Sailors and their ships," he said, "are one big happy family and one grand flect."

And I thought what a truly great and life-s achievement it would be if we could inspire mot to think of, and act towards, each other in the kindly and considerate way as sailors do!

- If, instead of embarrassing each other by selfable and inconsiderate driving, motorists would "try courtesy".
- If, instead of regarding and treating the other for as an enemy warrior in a tank, the motorist w regard him as a friend and "try courtesy".
- If, instead of heckling each other by hom-blowing, "weaving" and failing to dip or dim headlights when meeting, they would show more consideration for each other.

I sak you to join with me in accomplishing one of the great tasks of my department—that of making "courtery" the new spirit of the road.

Practise and preach the golden rule of the road— "Show to others the same courts y that you would like to have shown to you".

You know and I know that it will pay handsomety by preventing broken bones, wrecked property and broken hearts.

Sincerely yours, S. R. Sheeten
